PROFILE SUMMARY

User-centered UI/UX designer who takes products from research to polished, developer-ready interfaces. Experienced in designing complex admin tools, including a CMS and drag-and-drop page builder, and in building with React and Next.js so designs ship the way they were intended. Focused on clear flows, accessible interfaces and measurable usability gains.

TECHNICAL SKILLS

Design: UI design, UX research, wireframing, prototyping, design systems, interaction design, information architecture
UX methods: Empathy maps, personas, user journeys, user flows, card sorting, competitive audits, Crazy 8s
Tools: Figma, FigJam, [Adobe XD / Photoshop / Illustrator]
Front-end: React, Next.js, HTML, CSS, [Tailwind CSS]
Other: Node.js, [Git], [Jira / Notion]

EXPERIENCE

UI/UX Designer | KRP Design Studio **Sep 2025 – Present**

- Designed and implemented user-friendly Android interfaces and integrated third-party APIs into app workflows.
- Tested and debugged applications to identify and resolve performance and UI issues before release.
- Optimized app performance, contributing to smoother load times and fewer runtime errors.

UI/UX Designer Intern | Makeskilled Mar *2025 – Dec 2025*

- Built dynamic, responsive web application modules using HTML, CSS, and JavaScript for the presentation layer.
- Developed backend services and REST endpoints in Java with Spring Boot, supporting core application workflows.
- Collaborated with a small team under sprint-based deadlines, improving personal delivery turnaround over the internship.

PROJECTS

Kora Studio CMS: CMS and Page Builder Case Study | *UI/UX Designer & Front-end Developer* | *[2026]*

- Redesigned a CMS and Studio page builder so non-technical users can create and manage website content without developer help.
- Ran the full design process: empathy mapping, personas, journey maps, problem and hypothesis statements, competitive audit, user flows, site map, and paper and digital wireframes.
- Simplified content-editing flows by [X%] / reduced steps to publish from [X] to [Y] (add real numbers).
- Built the interface in React and Next.js with a Node.js backend, keeping design and code consistent.
- Portfolio link: [case study URL]

SkillConnect:A Social and Business Networking Platform| *UI/UX Designer & Front-end Developer* | *[2025]*

[Problem you solved and who it was for.]

- [What you did: research, design, testing.]
- [Result: metric, feedback or outcome.]

EDUCATION

B.Tech, Artificial Intelligence and Data Science *2025*

Usha Rama College of Engineering and Technology — CGPA: 8.60/10

CERTIFICATIONS

- UI UX Design with AI -MakeSkill
- Artificial Intelligence – Human Interactions and Methodologies, Infosys Springboard
- Core Employability Skills, Edunet Foundation & APSSDC
- Introduction to Industry 4.0 and Industrial Internet of Things, NPTEL
- Blockchain and Its Applications, NPTEL
- Privacy and Security in Online Social Media, NPTEL

SOFT SKILLS

Problem-Solving, Time Management, Interpersonal Communication, Active Listening, Adaptability, Leadership, Creativity
