PROFILE SUMMARY

UI/UX Designer with 1 year of hands-on experience designing web and mobile products end to end, from user research and information architecture to wireframes, high-fidelity UI and design systems in Figma. Skilled at turning complex products such as CMS page builders, advisor dashboards and service marketplaces into clear, intuitive and accessible flows. Front-end knowledge in React and Next.js keeps my designs consistent and developer-ready. Looking for a UI/UX Designer role to create user-centred experiences that are simple to use and measurable in impact.

TECHNICAL SKILLS

Design: UI design, UX research, wireframing, prototyping, design systems, interaction design, information architecture
UX methods: Empathy maps, personas, user journeys, user flows, card sorting, competitive audits, Crazy 8s
Tools: Figma, FigJam, Adobe XD, Photoshop, Illustrator
Front-end: React, Next.js, HTML, CSS, Tailwind CSS
Other: Node.js, Git, Jira, Notion

EXPERIENCE

UI/UX Designer | KRP Design Studio **Sep 2025 – Present**

- Designed and implemented user-friendly Android interfaces and integrated third-party APIs into app workflows.
- Tested and debugged applications to identify and resolve performance and UI issues before release.
- Optimized app performance, contributing to smoother load times and fewer runtime errors.

UI/UX Designer Intern | Makeskilled ***Jan 2025 – Oct 2025***

- Designed wireframes and high-fidelity UI screens in Figma for web application modules, following user-centred design.
- Applied UX methods such as personas, empathy maps and user flows to shape layouts, navigation and page hierarchy.
- Created responsive, consistent interfaces and implemented them with HTML, CSS and JavaScript, keeping design and code.
- Worked with a small team in sprint cycles, iterating designs based on feedback to meet deadlines.

PROJECTS

Kora Studio CMS: CMS and Page Builder | *UI/UX Designer & Front-end Developer | [2026]*

- Redesigned a CMS and Studio page builder so non-technical users can create and manage website content without developer.
- Ran the full design process: empathy maps, personas, journey maps, problem and hypothesis statements, competitive audit, Crazy 8s, user flows, site map, and paper and digital wireframes.
- Delivered 18 final UI screens with a complete style guide covering colour, typography and iconography.

FIN Wealth 360 – Advisor Workspace UI/UX Case Study | *UI/UX Designer | [2026]*

- Audited and redesigned a financial-advisor workspace covering dashboard, client and lead management, financial position review, campaigns, meetings and activity log.
- Reviewed 26 screens, mapped the information architecture and user flows, and documented UX issues with redesign recommendations.
- Proposed an advisor-centred navigation (Overview, Relationships, Reviews, Engagement, History) with clearer status, filters and data tables.

SkillConnect:A Social and Business Networking Platform| *UI/UX Designer & Front-end Developer | [2025]*

- Designed a mobile-first platform that helps people discover, trust and book local service professionals.
- Covered research, personas, empathy maps, card sorting, information architecture, user flows, and paper and digital wireframes.
- Designed separate User, Provider, Admin and Sign-in flows, backed by a design system with a component library.
