PROFILE SUMMARY

Final-year B.Tech Computer Science graduate (AI & Data Science) with hands-on experience building responsive, end-to-end web applications using React, Angular, and Flutter, backed by Python and Java backend development (Django, Flask, Spring Boot). Skilled in REST API integration, database design, and Git-based version control. Delivered three full-stack/mobile projects independently and completed two development internships. Strong problem-solver with a fast-learning mindset, comfortable working across the stack and adapting quickly to new frameworks and tools.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL

Frontend: React.js, Angular, Flutter, HTML5, CSS3, Bootstrap, JavaScript (ES6+), Responsive Design

Backend & Databases: Spring Boot, Django, Flask, Node.js, REST APIs, SQL, SQLite, Firebase

Tools & Concepts: Git/GitHub, OOP, Data Structures & Algorithms, ML/NLP fundamentals, Cloud-based workflows

EXPERIENCE

Java Full Stack Developer Intern | Makeskilled *Jul 2024 – Oct 2024*

- Built dynamic, responsive web application modules using HTML, CSS, and JavaScript for the presentation layer.
- Developed backend services and REST endpoints in Java with Spring Boot, supporting core application workflows.
- Collaborated with a small team under sprint-based deadlines, improving personal delivery turnaround over the internship.

Android Developer Intern | AICTE EduSkills *Jan 2024 – Mar 2024*

- Designed and implemented user-friendly Android interfaces and integrated third-party APIs into app workflows.
- Tested and debugged applications to identify and resolve performance and UI issues before release.
- Optimized app performance, contributing to smoother load times and fewer runtime errors.

PROJECTS

Skillconnect – Service Discovery & Booking Platform (Java Spring Boot)

- Built a social/business networking platform connecting users with service professionals for discovery and booking.
- Implemented RESTful APIs, secure user authentication, and database integration for reliable data management.
- Optimized backend performance and designed a scalable architecture to handle concurrent real-time requests.

GitHub: https://github.com/prem-kumar-max/skillConnect.git

Smart Bike Rental Platform (Python, Flask, SQLite, ML/NLP)

- Developed a platform for users to buy, sell, or rent bikes, with backend operations managed through Flask APIs and SQLite.
- Integrated ML-driven recommendations and an NLP-based chatbot to improve user engagement and support.
- Implemented secure authentication, booking workflows, and real-time availability tracking; optimized database queries for faster response times.

GitHub: https://github.com/prem-kumar-max/Bike-Rental-Platform.git

Smart Wedding Invitation Website (React.js, Next.js, TypeScript, Tailwind CSS)

- Built a responsive wedding invitation site including RSVP flow with prefill and a gift registry feature with selection tracking.

GitHub: https://github.com/prem-kumar-max/Ebenezer-Rebeca.git

EDUCATION

B.Tech, Artificial Intelligence and Data Science *2025*

Usha Rama College of Engineering and Technology — CGPA: 7.60/10

CERTIFICATIONS

- Artificial Intelligence – Human Interactions and Methodologies, Infosys Springboard
- Core Employability Skills, Edunet Foundation & APSSDC
- Introduction to Industry 4.0 and Industrial Internet of Things, NPTEL
- Blockchain and Its Applications, NPTEL
- Privacy and Security in Online Social Media, NPTEL

SOFT SKILLS

Problem-Solving, Time Management, Interpersonal Communication, Active Listening, Adaptability, Leadership, Creativity
